

SCHOOL CODE OF CONDUCT

1. If you want to enjoy the earth, you must look after it!
2. If you want to breathe clean, fresh air, leave the car at home! Remind you parents that you can walk or even cycle to school. Catch the bus and make Madrid an Olympic city!
3. Too much noise can damage your ears. Speak, don't shout, and listen to music at a low volume! When I speak without shouting, people understand me better.
4. If you want to recycle, separate your rubbish. Each material has its own separate bin.
5. More planting, less cutting! Use paper more efficiently!
6. Don't waste energy today; you will need it for tomorrow! Turn off the lights and open the blinds!
7. If you want a pet you must train it and clean up after it!
8. Transparent and clear is how water should be. Make sure it stays that way!
9. If you don't want to waste water, don't play with it!

Beauty comes from within; don't cover it up with brand names!
