

THE SCHOOL STIELERSTR 06

Our building

Let us introduce ourselves:

We are a school in a very old, memorial building. There are 3 different systems in one building:

the elementary school,
the school for kids with a speech impediment,
and our kindergarten for kids age 2 years and 10 months to age 12.
We are on the first floor of the building.

Our school is located in the center of Munich, just across the street from the “Theresienwiese”.

THE CENTER

Our school has a footballcourt
and 3 different playgrounds

Our kindergarten is open from
Monday to Thursday from 7h30-17h30,
Friday from 7h30-17h00.

We are closed in the summer during summer vacation for 3 weeks
alternately at the beginning or the end of the 6-week period.

THE „AULA“; A PLACE TO CELEBRATE

The „Aula“ connects the Kindergarten with the „Hort“.

The „Aula“ is also the entry to all schools and preschool for special needs for speech.

It is mostly a place to meet, to celebrate most holydays and for all big events.

OUR ROOMS

The Theater- and Music-room.

The study and library

There are 14 classrooms in our „Kindertagesstätte“.

The rooms are either places with a special funktion like studies or theaterplay etc. or they are rooms for one group of children where they can play and study together.

Our children are attended to in 6 different groups.

Two groups are kids of the age 2years 10 month to 6 years..

They have the chance to stay there all day, depending on their time of booking.

The other 4 groups of children are in their rooms after school, when their parents are at work. They are between the age of 6-12 years old.

PARTS OF THE CONCEPT

Our points of emphasis in our school are:

- A safe and comfortable shelter
- A place to unfold their creativity
- A place to be accepted with empathy and understanding

The children can try many things:

- They can discover their talents
- Practice independence within a group
- Celebrate and prepare a special event
- Sing and dance, play and direct a theater performance
- Learn how to play within a group
- Learn how to work with different materials
- Learn to intensify their educational skills by practice
- They discover new impressions through excursions
- Learn how to use the new electronic devices like computers
- Work in projects
- Work with the Montessori material to learn with all senses

THE KITCHEN IN OUR „KINDERDAYCARE“

We employ a house keeper to prepare our food and care for our bodily needs. The food for our school is partly fresh from the health food department and partly frozen from a firm called “Apetito”.

THE TEACHERS

There are 14 teachers of many nations in our school, most of us speak two languages.

Mrs. Emmada-Müller
Teacher for the children
5-6 years old

Mrs. Höhle
The prinziple
of our Kindergarten

Mrs. Schubert
Vice-prinziple of
Kindergarten

AND LAST, BUT NOT LEAST

All schools in the building work closely together.
We are part of the city of Munich (our employer), and therefore also connected with all the public offices and institutions.

Our „Kindertagesstätte“ has an „Elternbeirat“, this is a group of parents which are elected from other parents to represent the rights of their children.
